# Skip Hire

Regardless of your sector we have a waste management plan that will suit your needs. We are licensed by the NIEA to collect, process, recycling and dispose allowing you to focus on your core business activities.

## Skip Sizes

We have a wide range of skips to suits all types of waste, below are the range of skips we can provide:-

- ▶ 2 yard skip
- ▶ 4 yard skip
- ▶ 8 yard skip
- ▶ 12 yard skip
- ▶ 12 yard sealed skip
- ▶ 20 yard roll on skip
- ▶ 25 yard roll on skip
- ▶ 30 yard roll on skip
- ▶ 35 yard roll on skip
- ▶ 40 yard roll on skip
- ▶ 40 yard roll on sealed skip
- ▶ 50 yard roll on skip

WE also have a collection service for waste that doesn't not warrant the hire of a skip.

## Haulage

We also have the facilities to offer bulk haulage for any good your need moved within Northern Ireland. We have the following trailers for this service:-

- ▶ 40 foot ejector trailer
- ▶ 40 foot walking floor trailer

## Waste Types

Generally you can use a skip for any 'general waste'. This is waste that is not hazardous or contains any food waste.

If you have any of the following waste streams your would be best with a dedicated skip, or we can offer a collection service if the amount doesn't warrant a skip. This allows you to remain legally complainant within the law while keeping your cost.

## Hazardous / Special Waste

- ▶ WEEE waste (all electrical items)
- ▶ Asbestos Waste
- ▶ Plasterboard
- ▶ Food waste
- ▶ Paint Tins
- ▶ Florescent tubs
- ▶ Confidential waste / shredding
- ▶ Contaminated materials

## Company Culture

To help you start a recycling culture in your workplace, we also offer **FREE** recycling posters. These can assist you to increase your recycling rates and reduce your overall waste costs. .

**If you would like to discuss your waste, please give us a call. Within a few minutes on the phone we will be able to give you a cost based on the waste you have on site.**

# Contaminated Land Services

---

**Providing a range of services to treat, manage and remove contaminated land throughout the UK. From Asbestos in soils, Japanese Knotweed, oils and other contaminants.**

---

## Services we offer:

- ▶ Preliminary Risk Assessments
- ▶ Concept
- ▶ Contaminated Site Characteristics
- ▶ Remediation Strategy & Options Appraisal
- ▶ Detailed Remediation Design
- ▶ Geotechnical Assessment
- ▶ Emergency & Response
- ▶ Materials Management & Qualified Persons
- ▶ Expert Witness
- ▶ Peer Reviews
- ▶ Construction Support
- ▶ Environmental Due Diligence

## Project Delivery:

- ▶ Site Investigation & Field Monitoring
- ▶ Feasibility & Pilot Studies
- ▶ Remediation Monitoring & Verification
- ▶ Remediation Supervision & Management
- ▶ Data Management
- ▶ Remediation Engineering
- ▶ Operation & Maintenance
- ▶ Contract Management & Administration
- ▶ Fixed Price Remediation

## Soil Remediation

When it comes to providing effective solutions to contamination problems, we have the expertise in a wide range of innovative, efficient techniques. In addition to traditional decontamination methods, much of our remedial work utilise scientifically advanced, in-situ techniques, avoiding the need for excavation. These less intrusive methods reduce environmental impact caused by landfill and lorry movements.

## Japanese Knotweed

This is a growing concern for many people in the UK. Japanese Knotweed is a very invasive plant that can cause serious problems for home owners and businesses. If you have Japanese Knotweed you are should report it and have it treated or removed as soon as possible. It is illegal to plant or allow it to grow in the wild in the UK. We have methods to treat and remove the invasive plant to suit you budget and planning requirements. ***The sooner you act the more the cheaper it will be.***

# Asbestos

Surveys  
Removal  
Disposal  
Advice

## Surveys

An asbestos survey allows you to effectively identify the presence of asbestos. From there, clients are then better placed to manage known asbestos containing materials (ACMs) in their properties.

**A management** survey will aim to document the areas containing asbestos, the volume, its condition and the type of asbestos. This in turn is often used to assess the risk involved in any planned refurbishment or development at which stage a **Refurbishment and Demolition** survey would be necessary.

Our clients benefit from the following:

- ▶ **High quality:** Removal of all associated health and litigation risks that can occur as a result of a low quality asbestos survey.
- ▶ **Accuracy:** Excellent attention to detail and integrity in sample collection, as well as measurement and analysis.

### When do I need an asbestos survey?

If you *own or have responsibility for a non-domestic property (such as a shop, office or industrial property) anywhere in the UK, built pre-2000, then you are required to have an asbestos register in place at all times.*

We provide both guidance and consultancy services specific to asbestos, therefore if you are in any doubt about your compliance or obligations simply contact us and we will be happy to help.

### Which type of asbestos survey do I need?

As outlined above, asbestos surveys vary significantly in terms of size and complexity and purpose. If you are still unsure please get in contact with us and we will be happy to answer any queries,

## Removal & Treatment

If you have any ACMs we can also remove or treat them to ensure the area is left safe. Removal is always the last option, therefore if the ACM is in a suitable condition it would be treated to avoid having to remove it which would be a costly action.

We would work with you on any Removal / Treatment project to ensure that the remedial action will allow the work around the ACM to continue safely.

If you would like to obtain a quote for asbestos removal please contact Wesley at [wesley@portadown-recycling.com](mailto:wesley@portadown-recycling.com) or call 02838 333340.

## Disposal

If you wish to remove any non licensed ACMs you will still require for the asbestos to be collected and disposed off in the correct manner.

If you would like to use his option please contact us as we have the certificated asbestos sealed skips that you will need for this type of work. We also liaise with the NIEA and landfill sites to ensure that all the hazardous waste transfer notes are completed. On completion of the contract you would receive a copy of all the waste transfer notes.

## Advice

If you have any questions, simply contact Wesley at [wesley@portadown-recycling.com](mailto:wesley@portadown-recycling.com) or call 02838 333340 and he will be happy to help.

## PORTADOWN RECYCLING WASTE MANAGEMENT LICENCE

Northern Ireland  
Environment

# Protection

**We provide a service you can trust which will help you remain legally and morally compliant with your waste.**

Customer feedback is strongly indicating that the issue of compliance is becoming the single most critical aspect of waste management – even exceeding the reliability of the physical collection of waste from site.

We understand there is a growing demand from internal and external influences to demonstrate due diligence and a knowledge your waste is being handled in a legally compliant manner from the moment it has left your site until it meets its final destination, whether that is to a recycling facility, or an Energy Recovery facility.

We will also help keep you abreast of any pending legislation and when necessary, notify you if they are likely to impact on your service. Further to that, if you ever need to do anything differently we will take the hassle away from you by having already thought of the best solution relevant to you, to continue helping you stay ahead of the rest.

**All Compliance Documents are on line to download or we can email you a compliance pack.**
